SCOTT ROGERS  
PRIMARY EXAMINER

***Examiner's Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

Referring to claims 1, 3-11, 13-21, and 23-30, the prior art searched and of record neither anticipates nor suggests in the claimed combinations, expressing a desired color gamut mapping strategy comprising a second combination of the gamut mapping intents, and associating a desired color gamut mapping strategy with at least one color in an input color gamut associated with the document. While it could be argued that Zandee et al disclose expressing a desired color gamut mapping strategy or profile, comprising different combinations of gamut mapping intents, for each object in a page or document (see page 7, line 16 to page 8, line 15), they do not teach associating such a profile with at least one color in an input color gamut associated with a document, page, or object.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
